EXECUTIVE BRIEF

Eliminate barriers to process innovation with Infor Velocity Suite

Infor™ Velocity Suite is a package of solutions and services that makes process innovation easy and impactful. Solve your business challenges with Infor's catalog of Infor Value+ process automations—prebuilt using Robotic Process Automation (RPA)—as well as Infor GenAI and Infor Process Mining. Our Infor experts implement it all for you.

74% of C-suite executives and software users say advanced technologies create business value

But often, there are barriers to using them. You may not know where to start, understand the full technology landscape, or have the in-house resources or skill set to move ahead.

Infor Velocity Suite eliminates those barriers by giving you the most advanced and proven technology, along with implementation services, to make it happen.

Get future-ready

Access Infor's most advanced technology to stay agile, adaptable, and ahead of the competition.

You can choose from Infor's catalog of Infor Value+ process automations using RPA, plus get usage of Infor GenAI and Infor Process Mining.

Simplify process innovation

Easily buy, implement, and use technology to improve processes continuously.

Infor Velocity Suite is a single technology package supported by Infor implementation experts who can make it happen for you.

Realize value

Achieve your organization's objectives with solutions proven to deliver results.

Whether you need to increase revenue, improve margins, or deliver better customer satisfaction, Infor Velocity Suite gets you there.

Infor Velocity Suite package includes technologies that innovate processes

Infor Value+ catalog of solutions

Choose from a catalog of Infor Value+ automation solutions. They're all designed to innovate a process in your organization and specific industry. Each one is ready to be added to your Infor CloudSuite™ ERP by a team of dedicated Infor experts.

Infor Process Mining

Uncover patterns, trends, and anomalies in your processes using Infor Process Mining. By using process analytics and mining algorithms, it uncovers actionable insights so that Infor CloudSuite ERP customers can transform their processes.

RPA

Get unlimited usage of RPA, an underlying technology in most Infor Value+ solutions. RPA uses bots to perform a sequence of activities or other system activities designed to remove manual work and streamline processes.

Infor GenAI

Get unlimited usage of Infor GenAI embedded within Infor Value+ solutions. With a single click, you can write, summarize, analyze, and translate instantly—right within your workflow.

Infor Velocity Suite gets you on the path of continuous process automation

The Infor Velocity Suite package pulls together advanced technologies from our industry cloud platform to make process innovation easy. First, Infor Process Mining identifies inefficiencies in your existing processes. You then select the Infor Value+ automation solutions that Infor experts will implement for you. Finally, Infor GenAI optimizes your processes for maximum productivity.
